Training

CIPHER SCHOOLS **July 2024**

FULL STACK DEVELOPER INTERN USING MERN STACK

- Built a full-stack note-taking application using the MERN stack (MongoDB, Express.js, React.js, Node.js).

- Developed scalable and secure RESTful APIs with Node.js and Express.js, integrating MongoDB for data management.

- Designed and implemented a responsive React.js frontend with user authentication and real-time updates.

Projects

Notes Web App | MERN Stack (MongoDB, Express.js, React, Node.js) **Dec 2024**
- Built a full-stack note-taking app with real-time updates, CRUD operations, and markdown support for rich text formatting.
- Developed secure user authentication, local storage, and a responsive React UI for seamless cross-device experience.
- Enhanced user productivity through features like markdown preview, autosave, and organized note management.

Restaurant Website | HTML, CSS, JavaScript **May 2024**
- Developed a fully responsive restaurant website with real-time reservation form, interactive menu filtering, and search functionality.
- Designed an engaging user interface with smooth animations and mobile-friendly layout for optimal user experience.
- Boosted customer interaction and booking efficiency through dynamic content and intuitive navigation.

Grocery Store | React, Bootstrap **Jan 2024**
- Created a dynamic e-commerce grocery platform with cart management, product filtering, and streamlined order placement.
- Integrated a responsive React interface styled with Bootstrap for smooth browsing on all devices.
- Delivered a fast and convenient shopping experience, improving user satisfaction and retention.

Certifications

Cloud Computing **Nov 2024**
NPTEL

Development in MERN Stack **July 2024**
Cipher School

Technical Skills

Languages: C++, JavaScript, C, PHP, Java

Frameworks/Technologies: HTML, CSS, Bootstrap, NodeJS, React, Angular, ExpressJS
